Alton, IL 62002

Dear Mr. Lehmann:

Agreed, agreed. Here are some suggested slogans:

"To activate labor, untax labor;
to activate land, tax land;
to maintain revenues, do both."

"Untax activity; tax inactivity."

"Untax enterprise; tax landholding."

"Untax the kinetic; tax the potential."

"The Just Tax."

"Tax justly: just tax unjust enrichment."

"Wrong: Tax is withheld when labor comes forth;
Right: Tax comes forth when land is withheld."

"Wrong: Withholding tax on the forthcoming of labor;
Right: Forthcoming tax on the withholding of land."

"Untax earning and saving; tax landholding and leeching."

"Accentuate the positive; tax the negative."

"Untax functional activity; tax dysfunctional acquisition."

"Stop taxing workers for doing; tax landholders for not doing."

"The one who treats our Good Earth like dirt has too much: let him move over for others who love her."

"Tax achievement and it won't happen; tax ability and it has to achieve. Your ability is your business; land's ability is everyone's business, measured by its market value. A tax on land value is a social performance standard."

"From each according to his land's ability; to each according to his contribution to the common wealth."

"Put it to use or turn it loose."

"Use, sell, or get out of the way."

"Make it produce or turn it loose."

"Get in the game or off the field."

"You can't tax water from a stone; try the sponge."

"Taxing unearned increment is squeezing a wet sponge."

"Don't tax doers; squeeze spongers."

"Stand still if you will, but off to one side, please."

"Just The Just Tax."

"Untax serving; tax taking."

"Untax the doing; tax the holding."

"The American economy is like a football game with no penalty for holding and a tax on rushing."

"Replace the withholding tax with the landholding tax."

"Withholding tax, No; Landholding tax, Yes!"

"Down with withholding taxes; up with landholding taxes."

"Untax earnings; tax holdings."

"Untax service; tax appropriation."

"Untax serving; tax sponging."

"A just tax is a unique tax."

"Stop withholding; tax landholding."

"Relieve earnings; tax leechings."

"Take what you need and leave the rest; just to make sure, we tax the land you take."

"Don't tax the achievements of people, but the aptitudes of land."

"Love the sinner, but tax the hogging and leeching."

"Tax work and turn it off; tax landholders and turn them on!"

Enough from me already. Let's have a slogan contest.

Sincerely,
